COMPANY PROFILE

J K Power System Pvt. Ltd. is a leading provider of industrial and commercial electrical solutions, specializing in the installation and maintenance of electrical systems. As a government-approved contractor, we ensure efficient and safe operations across various industries, backed by our expertise and commitment to quality.

In addition to our contracting services, we offer a wide range of high-quality electrical products and custom panel manufacturing. Our focus on innovation and reliability enables us to deliver solutions that drive operational efficiency and sustainability, making J K Power Industry a trusted partner for powering progress.

VISION

To be the leading provider of electrical solutions in a rapidly growing India, setting the standard for quality, innovation, and customer satisfaction in the industry.

MISSION

To empower industries and commercial enterprises with innovative and reliable electrical solutions that enhance safety, efficiency, and sustainability, contributing to a growing and prosperous India.

ELECTRICAL CONTRACTING SERVICE

As a government-approved contractor, J K Power System Pvt. Ltd. provides a comprehensive range of services across project and maintenance activities, ensuring safety, efficiency, and compliance at every stage. We specialize in working safely with electrical systems up to **66kV** voltage.

PROJECT ACTIVITY

1. Project Engineering
 - ❖ System Architecture Design and Selection of Field Instruments.
 - ❖ Panel Engineering and Loop Diagrams.
2. Installation and Commissioning
 - ❖ Installation of Control Instruments and Components, Loop Checking.
 - ❖ Commissioning of Systems and Instruments on-site.
3. Documentation
 - ❖ Intermediate Analysis Reports, Operation & Maintenance Manuals.
 - ❖ Project Completion Reports.

MAINTENANCE ACTIVITY

1. Annual Maintenance Contracts
 - ❖ Daily Operations and Maintenance Tasks.
 - ❖ Adherence to work permits, hot permits, and safety protocols.
 - ❖ Execution of electrical tasks, including cable laying and dressing, landing and termination.
 - ❖ Welding tasks for support fabrication, installation of instrument tubing, process indicators/controllers, junction boxes and cable tray installation.
 - ❖ Instrumentation tasks, including installation, calibration, repair, and maintenance.
 - ❖ Performing loop testing as required for system functionality.
 - ❖ Installation of control instruments and components.
 - ❖ Handling all panel installations related to instrumentation and electrical systems.

Our expertise ensures that all activities, including high-voltage operations up to **66kV**, are carried out with the utmost safety and precision.
